

Medical Detection Dogs

Patron: HRH The Duchess of Cornwall

Corporate Partnership Programme

Join our corporate network and be a part of our life-saving work. Medical Detection Dogs trains dogs to detect the odour of human disease using their amazing sense of smell. The aim is to develop faster, more accurate and less invasive diagnostics that lead to better patient outcomes. Your support will save lives.

We are at the forefront of the research into the fight against cancer and other life-threatening diseases, including Parkinson's disease and bacterial infections. Our Bio Detection Dogs are trained to find the odour of those diseases in human samples at our state-of-the-art training Centre and this work has the potential to benefit millions.

We also train Medical Alert Assistance Dogs to detect minute changes in an individual's personal odour triggered by their disease and alert them to an impending medical event. This helps them manage complex, life-threatening medical conditions by avoiding injuries and hospitalisation and improves their quality of life.

By joining our Corporate Partnership scheme, your regular monthly donation will help us to increase the impact of our life-saving work and train even more life-saving dogs.

"Douglas has been life changing. I would urge anyone considering approaching MDD not to wait until their health worsens, but to start the conversation now".

Jess describes her partnership with Douglas as being part of an excellent team. 'He knows me as well as I know him and together we are making sure we both get the most out of life. I'd be lost without him.'

Jess

Thank you for registering your interest in the Medical Detection Dogs Corporate Partnership scheme/programme? We will contact you from time to time about our corporate fundraising activities and events. You can change your contact preferences at any time by contacting fundraisingteam@medicaldetectiondogs.org.uk, or by calling 01296 655888. We will always protect your personal information in line with current data protection legislation and as set out in our Privacy Notice available on our website.

Payroll giving

Why not encourage your employees to support Medical Detection Dogs through payroll giving? It's an easy way for them to support us by giving a regular donation each payday. Another bonus is their donation is tax free meaning that if an employee chooses to donate £5 per month, the average tax payer will only actually pay £4 per month with the tax man paying the rest! For more information on how to set your employees up with payroll giving call 01296 655888 or email charlotte.richardson@medicaldetectiondogs.org.uk
